STITE VEGENATION AT IMP INVICORATING CORDIAL

TOR GENITAL BEBILITY, IMPOTENCY, INCONTINENCE, OR NOCTURNAL EMISSIONS, &c.—The astonishing success which has attended this invaluable medicine, for Loss of Muscular Energy, Physical Lassitude, and General Prostration, or any of the consequence, of youthful indiscretion, or indulgence of the passion in riper years, renders it the most valuable preparation ever discovered. In fact, as a remedy for the above complaints, it stands unrivalled and alone. There is no other reliable remedy, or any that has authentically received the sanction of the Medical Faculty. The WONDERFUL YEGETABLE PRODUCTION of which this medicine is composed has been tested, and its virtues proclaimed, by the highest names of the faculty of London, Paris, and the chief cities of Europe, as well as by eminent Physicians in tilis country. It is the only infallible remedy for NERYOUS, HEAD, and MIND COMPLAINTS—the mental physic so long sought for and never before found—the only agent that can administer to MIND DISEASES. It will remove all nervous affections, DEPRESSION, EXCITEMENT incapacity to study or business, less of MEMORY, CONFUSION, thoughts of self-destruction, fear of insanity, &c. It will restore the appetite, renew the health of those who have destroyed it by Sensual Excesses or evil practices. It has been said by some that these disorders, emissions, &c., were incurable. This, however, is not the fact.

DR. MORRE'S INVIGORATING CORDIAL has cured, and is constantly curing, these complaints—relieving the mental and bodily incapacity of the unfortunate sufferer, as the following testimony of the names received will conclusively show:

Dr. Woodward, of ——, Massachusetts Insane Hospital,

the following testimony of the names received will conclusively show:

Dr. Woodward, of ——, Massachusetts Insane Hospital, writes of one of his patients being cursed by using this Cordial-thus: "It gives me pleasure to inform you that one of my patients, while in Boston, procursed some of your Cordial. He tells me that he has not had a single emission since he commenced taking it, while before he had two or three a week. When he applied to me," says Dr. W., "I thought it hardly pessible for him ever to regain his full strength. I prescribed the usual medicine used in those cases in the hospital, but they had no effoct. In the mean time he purchased some of your Cordial, which has effected a cure I am sure no other medicine would. I shall ever recommend it, whosever an opportunity occurs."

The nature of the maladies relieved by this Cordial are generally such as to leave the publication of certificates of cures out of the question. The proprietor could produce a host of the most conclusive testimeny to show that the great reputation it enjoys was not accidentally obtained, but is firmly based upon its positive and apparently miraculous virtues. In all directions are to be found the happy parents of healthy offsprings, who would not have been so but for this extraordinary preparation. And it is equally potent for many diseases for wholl it is recommended.

THE MEDICAL JOURNALS

THE MEDICAL JOURNALS
have not, in a single instance that has been authenticated
given their sanction to any other preparation for the above
complaints. It has, in many violent and desperate cases
effected radical cures, after patients had been abandoned
and their condition pronounced hopeless by medical practi
tioners of high professional character.

THE COMMON EXPLESION

THE COMMON EXPRESSION of those who have used this Extract is: "I had heard your Cordial highly spoken of, but was one of the incredulous in regard to its merits, having tried various medicines sold for the same purpose, (different Sarsaparillas,) without deriving any benefit. I had almost given up all hope of obtaining relief, when I purchased some of your Cordial. I had no faith whatever of its benefiting me—but it has. I feel stronger, have had no emissions, since, although it is not three weeks. I am satisfied that the half a dozen bottles I took will cure me."

Another says: "I had consulted several distinguished physicians. Some sald I could not be cured; others prescribed this thing and that; but I found no relief until I procured some of your Cordial. I must say it completely cured me."

procured some of your Coruss. I mass say to completely cured me."

Another says: "I was surprised at the effect your Cordial had. Why had I not heard of it before! It would have saved me so much expense, besides years of mental and bodily suffering."

CAUTION.—Ask for Dr. Morse's Cordial, and take no other, as there are worthless imitations which its unrivalled excellence, fame, and popularity have brought into the market. It will not hurt the most delicate female, but do good. Beware of all other Cordials, &c., and try only this. It is put up in pint bottles, with the words Dr. MORSE'S INVIGORATING CORDIAL blown on the glass. Price \$5 per bottle; two bottles, \$5; six bottles, \$12; and \$24 per dozen.

impossible.

A CURE WARRANTED, OR NO CHARGE.

Young Men especially, who have become the victims of Solitary Vice, that dreadful and destructive habit which annually sweeps to an untimely grave thousands of young men of the most exalted talents and brilliant intellect, who might otherwise have entranced listening Senates with the thunders of eloquence, or waked to ecstacy the living lyre, may eall with full confidence.

Married persons, or those contemplating marriage, being sware of physical weakness, should immediately consuit Dr. J., and be restored to perfect health.

Office, No. 7 South Frederick street, Baltimore, Maryland, on the left hand side, going from Baltimore street, seven doors from the corner. Be particular in observing the name and number, or you will missiach the place.

DR. JOHNSTON,

Member of the Royal College of Surgeons, London, Graduate from one of the most eminent Colleges of the United States, and the greater part of whose life has been spent in the Hospitals of London, Paris, Philadelphia, and elsewhere, has effected some of the most astonishing cures that were ever known. Many troubled with ringing in the ears and head when saleop, great nervousness, being alarmed at sudden sounds, and bashfulness, with frequent blushing, attended sometimes with derangement of mind, were cured immediately.

TAKE PARTICULAR NOTICE.

TAKE PARTICULAR NOTICE.

Dr. J. addresses all those who have injured themselves by private and improper indulgences, that secret and solitary habit, which rule both body and mind, unfitting them for of the business or seciety.

These are some of the sad and malescale.

iabii, which ruin both body and mind, unntung them for ither business or scelety.

These are some of the sad and melancholy effects produced by early habits of youth, viz: Weakness of the Back and Limbs, Pains in the Head, Binness of Sight, Loss of Muscular Power, Palpitation of the Heart, Dyspepsia. Nervous Iritability, Derangement of the Digestive Functions, General Debility, Symptoms of Consumption, &c., &c.

Mentally.—The fearful effects on the mind are much to be dreaded. Loss of Memory, Confusion of Heas, Depression of Spirits, Evil Forebodings, Aversion of Society, Self Distrust, Love of Solitude, Timidity, &c., are some of the evils produced.

Weakness of the system, Nervous Debility and premature decay generally arise from the destructive habit of youth, that solitary practice se fatal to the healthful existence of man, and it is the young who are most apt to become its victims, from an ignorance of the dangers to which they subject themselves. Parents and Guardians are often misled with respect to the cause or source of disease in their sons and wards. Alas! how often do they assribe to other causes the wasting of the frame, Palpitation of the Heart, Dyspepsis, Indigestion, derangement of the Nervous System, Cough, and Symptoms of Consumption; also those serious Mental effects, such as less of Memory, Depression of Spirits, or peculiar fits of Melanchely, when the truth is, they have been caused by indulging in Peruicious but alluring practices, destructive to both Body and Mind. Thus are swept from existence thousands who might have been of use to Society. NERVOUS DEBILITY.

Society.
DR. JOHNSTON'S INVIGORATING REMEDY FOR OR GANIC WEAKNESS.

DR. JOHNSTON'S INVIGORATING REMEDY FOR ORGANIC WEAKNESS.

This grand and important Remedy has restored strength and vigor to thousands of the most debilitated individuals, many who had lost all hopes, and been abandoned to die. By its complete invigoration of the Nervous System, the whole faculties become restored to their proper power and functions, and the fallen fabric of life is raised up to beauty, consistency and duration, upon the ruins of an emaciated and premature decline, to sound and pristine health. Oh, how happy have hundreds of misguided youths been made, who have been suddenly restored to health from the devastations of those terrifo maladies which result from indiscretion! Such persons, before contemplating MARILAGE, should reflect that a sound mind and bedy are the most necessary requisities to promote connubial happiness. Indeed, without this, the journey through life becomes a weary pigrimage; the prospect hourly darkens to the view: the mind becomes shadowed with despair, and filled with the melancholy reflection that the happiness of another becomes blighted with our own. Let no false delicasy prevent you, but apply immediately.

He who places himself under the care of Dr. Johnston may religiously confide in his honor as a Gentleman, and confidently rely upon his skill as a Physician.

To STRANGERS.

The many thousands cured at this institution within the last ten years, and the numerous important Surgical Operations performed by Dr. J., witnessed by the Reporters of the papers and many other persons, notices of which have appeared sgain and again before the public, is a sufficient guara : ty that the afflicted will find a skilful and honorable physician.

physician.

TAKE NOTICE.

It is with the greatest reluctance that Dr. Johnston permits his card to appear before the public, deeming it unprofessional for a physician to advertise; but unless he did so, the afflicted, especially strangers, could not fail to fall into the afflicted, especially strangers, could not fail to fall into the hands of those imprudent, boasting impostors—individuals destitute of knowledge, name, and character—pedlars, sheemakers, mechanics, &c., aflvertising themselves as physicians; ignorant quacks, who keep you triffing month after month, as long as possible, and in despair leave you with ruined health to sigh over your galling disappointment. It is this motive alone that induces Dr. J. to advertise, for he alone can care you. To those unacquainted with his reputation he deems it necessary to say, that his credentials er diplomas always hang in his Office.

Weakness of the Organs immediately cured, and full vigor restored.

Pennsylvania All Right!

As the day of the Presidential contest draws As the day of the Presidential contest draws near, the expedients of our fear-stricken opponents become as desperate as their anticipations of the result are dark and despairing. There is not a candid man among them, with any knowledge of the prevailing sentiment in this State, who does not know, and who has not felt, that Pennsylvania is destined to vote for General Scott by an overwhelming majority. Even the New Yerk Herald, which, next to the London Times—both being conducted by British subjects—is among the most active, reakless, and mercenary of the partisan Monday, Oct. 4, 1852. \{
Mr. Douglass presented the petition of G. Snowdez and others, for setting the curb and paving the footway on the south front of squares 198, 216, and 217; which was read and referred to the Committee on Improvements.

Mr. Queen presented the petition of Henry Ebling for the remission of a fine; which was read in the footway of the footway informed that, within a few days past, whether for the purpose of reviving the drooping energies of their followers or of exciting a temporary confidence elsewhere, a fund has been provided, through certain managers in this city, and sent to Washington, to be bet on the election in our

State. Now, we shall not undertake to say how this money was procured; but we are at liberty to draw our own inferences from well-vouched facts, and to reason out just conclusions from reason-Mr. Cull, on leave, introduced a bill making able premises. It is very well known that the n appropriation for the sea-wall at the foot of Hon. Robert J. Walker, ex Secretary of the Treasury, and the author of the tariff of 1846, went to England, more than a year ago, to negotiate a loan of fifteen millions of dollars. The public know with how much distinction he was welcomed by the loom-lords of England, and by those large by the loom-lords of England, and by those large interests whose prosperity depends entirely upon the prostration of American industry. And it is not forgotten that the Treasury report of this same distinguished Democrat, recommending the destruction of the protective policy, received the unprecedented compliment of being printed by the House of Lords. Shortly after Mr. Walker's presence in England, the Free Trade League private a fund of more than a million of dellars. raised a fund of more than a million of dollars to promote its objects; and there was much reason to suspect that a portion of that large contribution found its way into the United States, when a modification of the tariff was proposed during

the 31st Congress. Within the last two years the British manufacturers have become enormously enriched at the cost of our domestic labor. It is estimated that since 1848 more than one hundred millions of government, State, corporation, and railroad stocks have been added to the aggregate pre-viously held by British capitalists. These hundred millions are the return profits upon fabrics, the great bulk of which would have been manu-factured in this country under a judicious and factured in this country under a judicious and moderate system of encouragement. And they do not disclose the entire profits, because the vast amount of specie which has been annually exported to pay balances of trade, does not appear in this exhibit of stocks. If, then, it was the interest of the British manufacturers to lavish their money amang the lobbies at Washington, and to subsidize mercenary preases during the 31st Congress, how much greater is their interest to employ every resource now, when the election of Gen. Scott would be the death-knell of that of Gen. Scott would be the death-knell of that

industrial masses?

And it is very easy to conceive that Mr. Walker, who still tenaciously remains in England, dangling at the heels of her capitalists, and begging loans on London 'Change, and who is the lea spirit of the Democratic Free Trade party in the Mr. Douglass, on leave, (and in accordance with the petition,) introduced a bill authorizing of communication and the agent for supplying success, as the incentive to unusual exertion. Mr. Douglas, on leave, introduced a bill en- Whether this supposition be well-founded or not, has been raised in Manchester, Leeds, Birmingham, and Sheffield, and that heavy contributions which was read three times and passed.

The doom of Locofocoism is written. The leaders see it and tremble. They behold it On motion, the bill for the relief of John in the immense and spontaneous gatherings of Shennar was taken up, read the third time, and the people, who have poured out from the hills and the valleys, to express their grati-tude for the services of Winfield Scott. They behold it in the gushing enthusiasm which every bill in relation to taverns; which was read twice where greets the old hero, as he advances on his and made the special order of the day for Monjourney to the capital. They feel it in the absence of all excitement on their own side and the want of every quality on the part of their candidate, to call out one generous sentiment. And, worse than all, they are destined to realize it in the verdict of that ballot-box, through which the heart of the American people will pulsate on the 2d of November.

No wonder, then, that in the desperation excited by fear and the certainty of an approaching doom, our opponents should follow rash counsels and adopt extreme expedients. It was the fortune of Winfield Scott to conquer the British with their formidable odds, and with the veterans of Wellington, in the second war of independence. And it is soon destined to be his fortune to triumph over the Locofocos and the British together, who are now banded in a common cause, and struggling for a common end. [North American.
